

# Simplify the credentialing process with ADA® credentialing service, powered by CAQH

## American Dental Association (ADA) and CAQH team up to simplify the credentialing process for dentists.

The ADA credentialing service, powered by CAQH, is making it easier to submit and maintain your professional information in one central place for credentialing and other business needs. Your information will be accessible to you and the participating organizations you choose. And it's FREE to dentists.

- All U.S. practicing dentists, ADA members and non-members, visit [ADA.org/godigital](https://ada.org/godigital) to sign in
- Update your ADA account, or go directly to the credentialing login page
- Complete your CAQH professional profile, submit your supporting documents electronically and attest to their accuracy
- Authorize UnitedHealthcare/Dental Benefit Providers to access your information
- Stay current by updating any information in your profile that has changed or expired, and then attest

### Go digital!

Spend less time with paper and more time with your patients

Visit [ADA.org/godigital](https://ada.org/godigital)

## Less paperwork. One solution. Countless hours saved.

### Ready to get started?

- Sign in at [ADA.org/godigital](https://ada.org/godigital)
- Your ADA account information will be used to sign in to your ADA account and from there you will be able to access CAQH to complete your credentialing profile

Need help getting started? Contact the ADA Member Service Center at 800-621-8099, 8:30 a.m.–5 p.m. CT, Monday–Friday, or via email at [msc@ada.org](mailto:msc@ada.org).

### Dentists already using CAQH

Sign in at [ADA.org/godigital](https://ada.org/godigital) and remember the following items:

- Authorize UnitedHealthcare/Dental Benefit Providers to access your profile
- Ensure all your information is correct (e.g., ID #s, addresses, phone numbers and email address)
- Confirm your credentialing documents are current (e.g., malpractice insurance, CDS and/or DEA)

### Need help with CAQH?
